

A PROCLAMATION OF TYRANNY

THE patient sufferance of The Sovereign People of the United States of America will no longer continue silently at the mercy of our government. We, The Sovereign People, of the United States of America bring before the government our grievances. This comes as a response to the campaign of tyranny and misrepresentation being waged by our federal government. Our Constitutional Republic is for and by the Sovereign People, and in saying this we remind those in government, We The Sovereign People are the stakeholders in our country not our representatives. We, The Sovereign People, have repeatedly petitioned the government to halt legislation and laws that alter or dismiss our natural rights. We, The Sovereign People of the United States of America, demand that our grievances are heard. Herein are our grievances:

Has passed legislation, executive orders, bills, declarations, acts, orders, proclamations, laws, policies, resolutions, rules, codes, motions, provisions, etc which alter or challenge each citizens natural rights
Has refused to read and/or debate all legislation, bills, laws, resolutions, etc introduced into session
Has engaged in offensive military actions against countries which pose no danger to the United States or its interests
Defends and supports the actions of foreign nations and dictators, nations and dictators who murder, restrict, and oppress their people
Has erected government bodies, who impose the will of the President and the Presidents administration, which alter our natural rights without the consent of the people
Has arrested citizens for peacefully assembling and exercising their natural right to free speech
Has barbarously passed legislation negating the fourth amendment of the Constitution of the United States of America which alters the checks and balances system of our government
Has participated in the treacherous practice of allowing lobbyists to alter legislation our representative's author through the persuasion of bribes
Has created secret bodies of government which have no oversight from the government or the people of the United States
Has encouraged our representatives to lie to the citizens, through not holding them accountable for falsely representing facts, legislation, budgets, etc
Has been dishonest with the people of the United States about reasons and motives that foreign nations are not willing to engage in trade and discussion
Has often infringed upon the right to keep and bear military arms, weaponry, and other tools of war that are necessary to maintain a well regulated militia
Created and refuses to change the illegal and discriminatory income taxation system
Has created bodies of government for socialist programs and mandates taxation of wages for said social programs
Has created Presidential "executive orders" that go beyond the constitutional authority vested in the presidency and the federal government
Has lied to the people of the United States in reference to the governments failures and is not humbled when it falters
Has continued to allow and promote the use of interrogation techniques which maim, injure or kill their suspects which further demonstrates that America is of no higher moral code than anyone else around the world including our enemies
Has continued to direct America into superfluous debt and refuses to address budgetary issues in the name of party politics
Has promoted the devaluation of America's currency by allowing the Federal Reserve to create money at will
Defends and continues its molesting and unwarranted searches of its people by the Transportation Security Administration, and other federal agencies, which are a blatant infringement of our natural rights as defined in fourth Amendment of the U.S. Constitution
Knowingly arms and trains enemies of the United States to become entangled in foreign affairs which result in a great deal of blowback on America and its interests and infringes on the sovereignty of foreign nations
Mandates the people to pay taxes to imprison enemies of the state at great cost to the sovereign people with no outcome but to rot in prison at the sovereign people's expense
Creates and enforces laws which restrict the peoples natural rights to freedom of choice as to pursue their life liberty and pursuit of happiness
Frivolously taxes its citizens to support its own spending addiction
Imposes illegal government oversight into personal lives by attaching technological chips into our personal technology in the name of security
Confiscates private property through eminent domain and does not use the property for the public good or for government, but rather sells the land to private businesses
Permits corporations to contribute to the campaigns of politicians under the guise of the first amendment of the Constitution of the United States
Has continually allowed the Executive to implement programs, appoint unelected officials, created illegal federal agencies, and wage war without the consent of The Congress
Has suspended Habeas Corpus, and made lists of, and executed without trial, American citizens.
Continues to regulate The Sovereign People under the misinterpretation of Article 1 Section 8 Subsection 3 which does not allow for the regulation of sovereign individuals or their rights.

Although this proclamation does not encompass all grievances, the grievances described are blatantly administered to the dismay of our, the Sovereign Peoples, natural rights. We, The Sovereign People, have allowed time and opportunity for the government to resist the temptation of indulging in unconstitutional power that positions of government can provide. We are at a pivotal moment in our countries history. Action must be taken to ensure we remain free and uninhibited from pursuing happiness as each of us, the Sovereign People, see fit. Our country was founded upon morals of goodness, liberty, and individual freedom, not the tyrannical oppression which we have described in our grievances. As The Sovereign People of the United States of America we demand the government cease and desist its corrupt ways and unconstitutional practices which repel, alter or even challenge our natural rights as defined in the Bill of Rights and Constitution of the United States of America. We demand all grievances as described be addressed, debated and all legislation, executive orders, bills, declarations, acts, orders, proclamations, laws, policies, resolutions, rules, codes, motions, provisions, etc be eliminated and all future legislation follow the guidelines of one of our most precious founding documents, the Constitution of the United States. We, the people, will continue to vociferously petition the government for redress of our grievances if the ears of our government are not opened and in tune with its people.

Matthew Liskey Esq. and Col. Ian Houston
